

We are really glad we chose Top Coat Home Improvements to restore our roof. We had a big lichen problem on our Colourbond steel roof and a leaking gutter on the part of our home that is two storeys high. In the past couple of years we'd had some quotes from other companies but decided it was too expensive to proceed. We then saw the Topcoat team restoring our neighbour's roof and were impressed with their workmanship and attention to detail. We decided to invite them to quote on our own roof requirements.

During the quoting process, Tony was great at explaining all the details including options on colours and finish. He assured us that our leaking gutter problem would also be addressed as part of the job. The other companies had showed little interest in attending to this major concern of ours. We were very pleased that their very competitive price fitted our budget.

We had decided to make a big change to the colour of our roof but then became worried about our choice. Adam was very patient and made sure we were happy with our colour choice before he proceeded with the paint purchase. The work was completed with the same fastidious care and attention to detail we had observed previously. The team were fantastic and kept us well informed when a run of rainy weather delayed progress. We felt very comfortable with each member of the team who attended our home. They were friendly, unobtrusive and displayed a high level of professionalism. At the end of every day Brad and Adam left our home clean and tidy despite the messy nature of the cleaning process.

We couldn't be happier with our roof restoration. It now looks brand new and the 10 year warranty gives us peace of mind. We are so glad we made the decision to use Top Coat Home Improvements for the job. We have no hesitation in recommending this great family owned, SA business.
