

7th March, 2019

TO WHOM IT MAY CONCERN

I am writing to recommend the services of Top Coat Home Improvements, Roof Restoration Specialists who install Energy Star Infrared Heat Reflective Coatings on roofing and worked on our premises at 42 Sussex Street, Glenelg, South Australia during the week 27th to the 6th March, 2019, during the most difficult weather conditions we have experienced in a long time.

The project was run by Adam Wannan and as a client we were treated with the utmost professionalism and quality of service by both himself and his work Colleague David.

The workmanship was excellent and most importantly they left my home in the same condition as when they arrived. Both Adam and David were at all times thorough and easy to work with and always willing to take the time to discuss our concerns, not that there were many, and respond to questions put to them.

We are overjoyed with the result which has added so much value to the property and would recommend wholeheartedly this Company as being the top of referral list.

Sincerely

Vicki Richards and Geoffrey Gaszner
